

CPV News Update

Next Board Meeting

Monday April 19th 6 PM Zoom

April 1

Wall Painting Update

The Cove masonry wall and metal fence painting is continuing into April. Desert Crest I is next, we will be notified of the anticipated start date.

Per earlier CPV communications, once painting is complete in your neighborhood, those with a metal fence will receive an assessment for the painting from Mission Management.

CPV Pool Covid Guidelines

We have updated the COVID Guidelines issued in May 2020 to allow up to 25 people and permitting member's guests. ENJOY!

Broken Glass, Spills, Food Debris at the pool ...

Reports coming in from the pool service provider, the janitor, and residents of food and beverage debris being left behind by CPV pool users. There have been several findings of broken glass and wine bottles on the pool deck and at the spa. If there is any likelihood that broken glass is in the pool or spa water, Sparkle and Splash will insist we close the pool to drain it. That is a significant undertaking, the cost of which will be borne by Center Pointe owners. Please pick up after yourselves and refrain from taking glass into the pool area.

Open!!!

As a reminder, the **Splash Pad** is open **April-October**; the pool vendor has informed us it is up and running as of this writing. **Please review the CPV Pool and Spa Rules** that are posted at the site.

CPV Facility Reservations

Following Pima County's outdoor gathering capacity increase, reservations for Center Pointe's open air Ramadas and BBQ Grill Ramada are now being accepted for up to 25 persons. The request form is on the website, centerpointevistoso.org or by contacting Mission.
