Time to get wet!!

The CPV Splash Pad area is open and operational after a bit of minor repair work. With Summer just around the corner there are sure to be lots of opportunity to enjoy the community grill area, pool and splash pad area!

As a courtesy to others, the BoD would like to remind all that the Spa area is not recommended for children 12 and under, and it is not to be used as a play or wading pool.

Be considerate, Be Safe and Most Importantly...

HAVE FUN!!!!

April Meeting Cancelled

The CPV Board or Directors has decided to cancel the planned April Meeting.

While this is not what we desired, it was determined that in order to obtain additional details on several pressing matters, it was the best course of action.

Please watch your email for details on the May meeting which is tentatively planned to return to the regularly scheduled 3rd Tuesday of each Month.

VISTOSO TRAILS NATURE PRESERVE UPDATE

The next Town of Oro Valley Parks and Recreation Advisory Board Meeting will occur on Tuesday, 9 May at 6pm in Council Chambers. The Vistoso Trails Nature Preserve Master Plan will be the first item on the agenda.

For those planning to attend, the meeting location is in the Town of Oro Valley Municipal complex at:

11000 N. La Canada Drive

Oro Valley, AZ. 85735

CPV Tree Trimming

Bright View has completed the planned tree removal and trimming project across the Community.

If you notice any remaining issues, please reach out!

Backyard Lighting

The warmer weather is quickly bringing opportunities to enjoy our wonderful Arizona evenings with friends and family.

Backyard lighting always adds to the convenience and ambiance for these gatherings.

The Board, would, however like to ask that we each be considerate of our neighbors by ensuring that no lights shine directly into others yards/homes and that all lighting is off by 10pm each evening.

CPV Gate Issues....

The Board would like to again apologize to all residents who have been inconvenienced by the recent community gate issues. Our gate company has repaired their failed equipment and all resident gate codes/tags 'SHOULD' be back in the system and fully functional.

If you are continuing to have issues, please reach out to Mission Management or to either of the following Board Members directly..
